## EXPERIENCE

### Sharpener.tech, Bengaluru — Training

DEC 2022 - Present

- Currently undergoing intensive training to excel as a Full Stack Developer with a keen focus on the MERN stack, emphasizing backend development with Node.js, Express, MySQL, and Sequelize.
- Engaging in comprehensive Data Structures and Algorithms problem-solving to sharpen analytical skills.
- Proficient in C++, leveraging its concepts and applications effectively.
- Actively developing RESTful API applications to facilitate seamless client-server communication.
- Successfully completed various projects and assignments, honing practical skills in deployment and hosting of web applications.
- Proficient in code debugging techniques to ensure robust and error-free applications.
- In-depth understanding of JavaScript from core to advanced levels, enabling the development of efficient and dynamic web solutions.
- Committed to developing secure backend applications, prioritizing data protection and security protocols.
- Implementing optimization strategies to enhance the performance and scalability of applications.
- Designing and developing modern server-side applications in alignment with industry standards and requirements.

## EDUCATION

**Dr. R M L A U, Ayodhya** — Bachelor of Technology in Computer Science and Engineering.

2018 - 2022

**Shri H R L I C G, Basti** — intermediate

2015 - 2016

**Shri H R L I C G, Basti** — HighSchool

2013 - 2014

## PROJECTS

### Blog Writing

- Developed a blog platform allowing users to write and comment on blogs.
- Implemented functionality for users to delete specific comments.

### Expense Tracker

- Designed a secure expense management application with user authentication.
- Implemented user sign up and login features protected by passwords.
- Integrated with pagination for enhanced user experience.
- Introduced premium features including leaderboard and download options.

### E-commerce Website

- Created a fully functional e-commerce platform with a custom backend.
- Developed backend functionalities for product management, user authentication, and order processing.
- Ensured seamless integration with frontend components.
- Technologies Used: Node.js, Express.js, MySQL, Sequelize, javascript.
